

Message from the Administrative Director

As you may be aware, the Commonwealth of Pennsylvania has been operating without a finalized state budget for over 100 days. This budget impasse has created challenges for schools across the state, including the Beaver County Career & Technology Center (BCCTC). Despite these challenges, our commitment to providing high-quality career and technical education to our students has not wavered.

The BCCTC administrative team, faculty, and staff have worked diligently to ensure that learning continues uninterrupted. Our focus remains on maintaining the high standards of instruction and hands-on training that define our programs. We are doing everything possible to protect the educational experience of every student enrolled at our school.

We would like to extend our heartfelt gratitude to our business and industry partners, whose generosity and support have been invaluable during this time. Their donations of materials, equipment, and financial resources have helped ensure that students continue to receive the hands-on learning experiences that are such a vital part of career and technical education.

A special thank you also goes to our dedicated faculty and staff, who continue to go above and beyond every day to make sure our students' educational needs are met, regardless of the financial challenges caused by the budget delay.

Finally, we want to recognize and thank our Joint Operating Committee members and partner school districts for their unwavering support of our programs, our staff, and—most importantly—our students.

Together, as a community, we will continue to work through these challenges and remain focused on our shared mission: preparing students for successful, meaningful careers.

Thank you for your continued support and understanding

Sincerely,

Laura DelVecchio

Administrative Director

Beaver County Career & Technology Center
