

December 3, 2020

Beaver County CTC Students and Families:

The Beaver County Career & Technology Center truly understands the importance and value of in-person instruction, specifically in our vocational curriculum. The Pennsylvania Department of Education (PDE) recommends that any school in a county with a substantial transmission level engage in virtual instruction. We will follow the recommendation from PDE and effectively immediately move to a virtual instructional model until January 4, 2021. This model will be the same that we started the school year with. Should Beaver County move to a moderate transmission level for a two-week period or the transmission level drops significantly, we will re-evaluate the instructional delivery model.

The health and safety of our students and staff remains our top priority. We will continue to keep you updated as we work together through the COVID19 pandemic. Please remain safe and follow recommended Department of Health and CDC guidelines.
